

APRIL 17–18 2014

2nd INTERNATIONAL CONFERENCE «SCHOOL OF THE GASTRIC SURGERY»

THURSDAY, APRIL 17.

8.00–9.00 Registration.

9.00–9.30 Opening of the conference.

Welcome by president of the hospital № 122 *professor J. NAKATIS*

Welcome by chief surgeon of St-Petersburg *professor P. YABLONSKIY*

Welcome by *professor ICHIRO UYAMA*

Welcome by chief oncologist of St-Petersburg *professor MANISHAS G.*

9.30–10.00 Preoperative discussion

- Clinical presentation of the patient – 10 minutes
The plan and the scheme of the operation.

10.00–11.30 SYMPOSIUM «Epidemiology, pathology and molecular biology of the gastric cancer

Professor V. MERABISHVILI «Epidemiology and survival of patients with gastric cancer according to the Russian cancer register.» (20 min)

Professor E. IMYANITOV «Molecular-biological characteristics of the gastric cancer. Current opportunities and future prospects.» (20 min)

DR. TADAKAZU SHIMODA «Pathological features of esophago-gastric junction (EGJ) including Barrett cancer. – How is the differences from ordinary gastric cancer?» (30 min)

Discussion (5–10 min)

11.30–16.00 OR – LIVE SURGERY

«Laparoscopic total gastrectomy» *Professor ICHIRO UYAMA*

Moderators: *professor V. KASHCHENKO, B. BASHANKAEV,*

Dr. TADAKAZU SHIMODA, prof. V. PISHCHIK

Coffee break (about 13.00–13.30)

APRIL 17–18 2014, SAINT PETERSBURG

Discussion and comments during the translation:

Dr. TADAKAZU SHIMODA

- resection line
- pathological intraoperative frozen sections and cytology: when and why?
- recording of finding (number and size of the lesions, tumor location, macroscopic type)
- handling of the resected specimen and description of histological findings
- measurement of lesions and fixation
- sectioning of the stomach resected
- sectioning of lymph nodes
- lymph node retrieval: a surgical or pathological duty?
- cardia vs. noncardia, intestinal vs. diffuse: different diseases?
- micrometastasis and prognosis

Prof. V.KASHCHENKO and prof. V. PISHCHIK

- how to tailor preoperative work up
- CT, EUS, MRI: what is better and when?
- diagnostic laparoscopy: why, when and how?
- how to standardize surgical technique?
- D1+, D2, D2+, D3 lymph node dissection
- main steps of the lymph nodes dissection
- tailored lymph node dissection: is it a real opportunity?
- current role of d3 dissection
- anastomosis after gastrectomy
- multidisciplinary management of postoperative period

17.00–18.00 Discussion after the surgery

Professor ICHIRO UYAMA, Dr. TADAKAZU SHIMODA

FRIDAY, APRIL 18.

THE GREAT HALL, THE 9th FLOOR

8.45–9.00 Opening of the day. Brief evaluation of the previous day.

9.00–11.00 SYMPOSIUM «Thoraco-laparoscopic esophagectomy»

- Lecture 1. *V. KASHCHENKO* «Lymph node dissection. Western and Eastern evolutions of the methodology: the role of Japanese surgical school» (15 min)
- Lecture 2. *Dr. KOICHI SUDA* «Thoracoscopic esophagectomy in the prone position: principle and method» (30 min)
- Lecture 3. *Prof. V. PISHCHIK* «Thoraco-laparoscopic esophagectomy» (15 min)
Expert opinions, commentary and discussion: Japanese and Russian experts (15–20 min)
- Lecture 4. *Prof. K. PAVELETS* «3D modeling lymphadenectomy in the esophageal cancer » (15 min)
Discussion (15–20 min)
Presentation of the patient with esophageal cancer (15 min).

SMALL HALL, THE 2th FLOOR

9.00–11.00 Seminar of pathology by DR. TADAKAZU SHIMODA

- Lecture 1. Pathological characteristics finding of early gastric cancer for early detection.
- Lecture 2. Histological diagnosis of dysplasia or intramucosal cancer from view point of Japan and West.
- Lecture 3. Gastric biopsy.
Discussion

11.00–11.15 *Coffee break*

11.15–12.00 OR – LIVE SURGERY

«Thoraco-laparoscopic esophagectomy»:
Professor V. PISHCHIK, Professor E. LEVCHENKO – thoracoscopic part .
 or
 «Laparoscopic gastric bypass» *Professor M. FISHMAN*
Moderators: Dr. KOICHI SUDA, prof. V. KASHCHENKO, prof. K. PAVELETS.

12.00–15.00 SYMPOSIUM «Multimodal management of gastric cancer»

- Lecture 1. *DR. TADAKAZU SHIMODA* «Standard and extended indication of endoscopic mucosal resection(EMR) or endoscopic submucosal dissection(ESD) for early gastric cancer and pathological process of resected material for correct histological evaluation» (30 min)
- Lecture 2. *Dr. KEN ISHIKAWA* «Totally laparoscopic total gastrectomy: principle and method of lymph node dissection and reconstruction» (30 min),
- Lecture 3. *Dr. A. KARACHUN* «Totally laparoscopic total gastrectomy: our technique» (15 min)
Expert opinions, commentary and discussion: Japanese and Russian experts (15–20 min)

2nd INTERNATIONAL CONFERENCE «SCHOOL OF THE GASTRIC SURGERY»
APRIL 17–18 2014, SAINT PETERSBURG

Lecture 4. *Professor I. KHATIKOV* «Splenectomy or spleen preservation lymphadenectomy during total gastrectomy» (15 min).

Expert opinions, commentary and discussion:

professor ICHIRO UYAMA, Dr. KEN ISHIKAWA, Dr. KOICHI SUDA (15 min)

Lecture 5. «Neo-adjuvant chemotherapy: doubts and assurances» (10 min)

- Neo-adjuvant chemotherapy – PRO (10 min) *prof. R. ORLOVA*
- Neo-adjuvant chemotherapy – CONTRA (10 min) *prof. V. KASHCHENKO*

The case presentation

Discussion (5 min)

Final discussion – 15 min

Any time during seminar OR – LIVE SURGERY – 30 min

«Thoraco-laparoscopic esophagectomy»:

Professor V. PISHCHIK, Professor E. LEVCHENKO – laparoscopic part.

or

«Laparoscopic gastric bypass»

Professor M. FISHMAN

Moderators: *Dr. KOICHI SUDA, prof. V. KASHCHENKO, prof. K. PAVELETS.*

15.00 TO SAY GOODBYE AND EXPRESS GRATITUDE TO THE JAPANESE SURGEONS

15.30–17.00 Seminar of obesity surgery

Lecture 1. *Prof. Dr. Med. RALF K. SENNER* «12 years experience robotic assisted surgery versus conventional laparoscopic surgery».

Lecture 2. *SEMENOV D.Y., Neymark* «Robotic assisted bariatric surgery».

Lecture 3. *FISHMAN M., GLADYSHEV D.* «The first experience of robotic gastric surgery».

Any time during seminar OR – LIVE SURGERY – 30–40 min

«Thoraco-laparoscopic esophagectomy»:

Professor V. PISHCHIK, Professor E. LEVCHENKO – final part .

Moderators: *Prof. V. KASHCHENKO, prof. K. PAVELETS.*

17.00 CLOSE OF THE CONFERENCE.
